"JUST A GOOD GUY"

By Hal E. Roach. ✓

Wilmot McBeezle posed for the head of a mechanical man invented by Prof. Alonzo Dodo. The animated dummy could walk run and fight. Wilmot was threatened with ejection by his landlord unless he paid the rent, and he gets a job in a pawnshop. The professor and his pretty daughter are threatened with the same fate, and he decides to pawn his mechanical man. After Wilmot has given the professor \$20. for it, a letter arrives offering \$50,000 for all rights to the mechanical man. This letter gets into the hands of the landlord first, who tells the professor he'll call the rent square for the pawn ticket. He then rushes to the pawnshop to redeem the valuable dummy, but Wilmot has accidentally broken it. To cover up the accident, he poses as the dummy and, though causing much trouble, he finally recovers the letter and exposes the landlord's plot, and everything ends happily, especially for Wilmot and the professor's daughter.
